

## Shut Up Little Man! An Audio Misadventure

A dark-comedy documentary about the cult phenomenon

**Synopsis** When two friends tape-recorded the fights of their violently noisy neighbors, they accidentally created one of the world's first "viral" pop-culture sensations. The tapes went on to inspire a cult following, spawning sell-out CDs, comic artworks, stage plays, music from the likes of Devo and a Hollywood feeding frenzy. For the newly famous neighbors Eddie and Mitchell, this would be a life-changing experience. Exploring the blurred boundaries between privacy, art and exploitation, SHUT UP LITTLE MAN! AN AUDIO MISADVENTURE is a darkly hilarious modern fable.

**Trailer >** <http://www.youtube.com/watch?v=SEDC8AluXVE>
