

SYNOPSIS Yale-educated and born with a silver spoon in his mouth, Sam Wagstaff transformed himself from innovative museum curator to Robert Mapplethorpe's lover and patron. Mapplethorpe brought the formerly starched-shirt preppie to the world of drugs and gay S&M sex, well-documented in his still-startling photographs. Twenty-five years separated the lovers, but their relationship was symbiotic to its core, and the two remained together forever. *Black White + Gray* reveals the powerful troika these two men formed with Patti Smith, and the influence their collective work continues to have over present-day art and culture.
